THE LEGEND

A Muscle Journey Begins...

In a world where physical gains and nutrient balances have been forgotten, a lone lifter stands strong against the decay of stamina and iron.

Equipped with the legendary "Musclog" cartridge, your mission is to log daily foods, calculate calories, track body-weight trends, and complete intense free workouts.

The path to ultimate fitness is fraught with heavy sets and calorie math. Lift carefully, watch your macros, and write your name in the Hall of Iron!
