THE LEGEND

A Muscle Journey Begins...

The world has forgotten the balance of iron and nutrients. One lone lifter still stands against the decay of strength.

Armed with the legendary Musclog cartridge, your quest: log foods, master your macros, track your weight, and conquer free workouts.

Lift with care, mind your macros, and carve your name into the Hall of Iron!

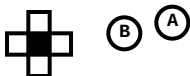

**** WARNING ****

READ BEFORE PLAYING

Take a 10 to 15 minute break every hour, even if you do not think you need it. Avoid playing if you are tired. If your hands, wrists, or arms become sore, stop and rest.

CONTROLS

D-PAD

Move cursor, scroll lists, adjust spinners.

A BUTTON

Confirm, save set, or add a character.

B BUTTON

Back, cancel, or delete characters.

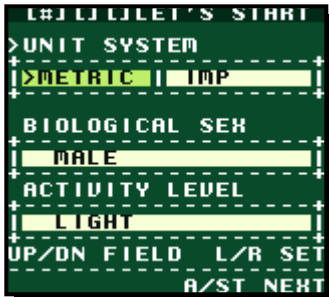

START

Alternate confirm ("ST").

SELECT

Open menu for the active screen.

GETTING STARTED

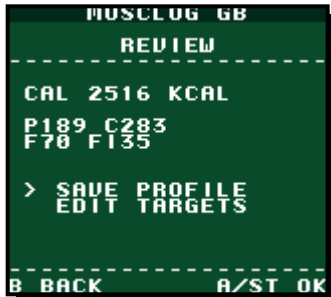

CREATE YOUR LIFTER

On first boot the cartridge guides you through setup: unit system, gender, activity level, age, height, weight, lifting experience, fitness focus, and weight goal. Your answers forge a training profile that powers every screen.

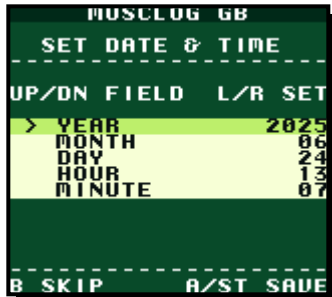

MACRO GOALS

YOUR DAILY GOALS

From your profile the game calculates daily targets for calories, protein, carbs, fat, and fiber. Review them on the overview screen and fine-tune any value before saving. Change your mind later? Edit them from Settings.

SET THE CLOCK

SET THE CLOCK

Musclog GB keeps a real-time clock so every log carries a true calendar date. Set the date and time once; the battery-backed cartridge remembers it through power-offs. With no clock set, your journey begins on 2026-01-01.

HOME DASHBOARD

THE DASHBOARD

Your base camp. Today's calories, protein, digestible carbs, fat, and fiber are shown against your goals at a glance. Press SELECT to open the menu and travel to nutrition, workouts, body weight, progress, or settings.

LOGGING FOOD

```
MUSCLOG GB
TRACK FOOD
-----
Pizza Margherita
AMOUNT
450 G
UP/DN L/R FAST
CAL 1017 KCAL
PRO 41G    CARB 151G
FAT 30G    FIB 12G
-----
B BACK    A/ST TRACK
```

LOG YOUR FOOD

Choose a date, search by name, and log a serving in grams or ounces. 517 foods are built into the ROM: 215 USDA foundation foods and 302 everyday staples. Open a food to inspect its macros, or delete an entry logged by mistake.

CUSTOM FOODS

SEARCH & CREATE

Prefix search finds foods fast. Can't find yours? Create up to 100 custom foods on-cart with calories, carbs, fiber, fat, and protein per 100 g. Custom foods appear first in results and are marked with a star (*).

NUTRITION DIARY

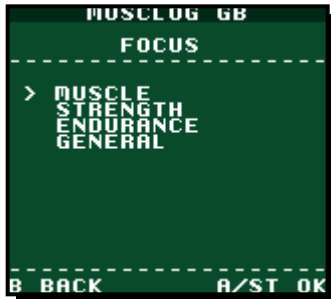

THE DIARY

Every meal logged for the day, totaled and measured against your goals. The carbs bar shows digestible carbs (carbs minus fiber) while fiber earns its own bar, so nothing is double-counted. Review, inspect, or remove entries.

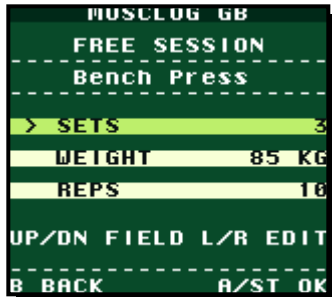

PROGRESS & CHARTS

TRACK YOUR GAINS

The progress dashboard pages through charts over a rolling 7- or 30-day window (toggle with Up/Down): muscle groups hit, workout counts, days logged, average macros, per-day bar charts, and your body-weight trend. Left/Right cycle pages.

FREE WORKOUTS

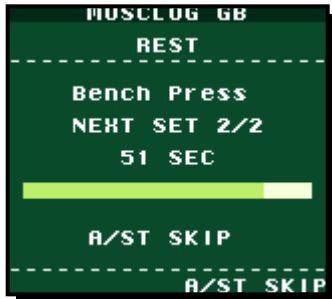

FREE WORKOUTS

Start a free session, filter exercises by muscle group, and lift. The game suggests starting weights; you edit sets, weights, and reps as you go. 198 exercises across 9 muscle groups are built in. Finished sessions are saved.

REST TIMER

CATCH YOUR BREATH

Between sets a 60-second rest timer keeps you honest and focused. Recover, then jump back in for the next set without losing your place in the session.

WORKOUT HISTORY

MUSCLOG GB	
WORKOUTS	1 DONE

THIS WEEK	1
SETS 2	VOL 1K

> CHEST 06-24-25

HALL OF IRON

Every completed session is battery-saved with its full set data. Revisit past workouts to see what you lifted, track your consistency, and prove your progress over time.

SETTINGS

SETTINGS

Update your profile, macro goals, and unit system whenever your journey changes. Toggle sound effects and the soundtrack, or reset all saved data to begin a new legend from scratch.
